Are You Troubled With Rheumatism?

DO YOU THINK RHEUMATISM IS INCURABLE? A great many will answer, Woll, I have hed it a long time and I have tried every-thiof that has come before my notice, and I still have it, and as far as I am personally concerned it seems to use that I always will have it.

HAVE YOU EVER TRIED "RENOVIA?"

Some will enswer and any "No;" never heard of it. Others will any "Yas," but I dilu't do me any good. Still others will say and have said Yes, I have not only tried i' but am really to beally that it has helped ma. Gheers will say, II I thought it would help me I would try it. To those who have tried it and have not seemed to realize that it had halped them.

DID IT COST YOU ANYTHING TO TRY IT? It did not; all must say that, those who have tried it and seem to think that it did not help thom:

To those who have tried it and seem to think that it did not nell tunni:

How Much and How Long Bid You Try It? And How Long Have

You Had Rheamatism?

Now these two last questions go well together. Consider them, for it takes longer to ontine a string with two knots in it than it does one, and it requires more patience on the part of the online revenue who has had thousatism a long time than on the part of the one who has just found out this in the at thousatism.

Wa will let you try include the one of pecific, and if it does not help you st will only creat you the treuthe of coming after it. Call on or address.

Americaus are credited with heving the poorest teeth of any people in the world. It is said the mose brain work a person has the worse his teeth become.

The highest lakes in the world see the Himalayas in Thibet, where there are some boiles of water as high as 30,000 feet above the level at the see.

Other Wisserres Will Prescribe Different Methods of Prescribe.

A lady whose thick, sallow skin cansed uncessing worry consulted an eminent physiciau as to a possible cure. His answer was more torelible than courteous, "Well, in the first place, go home and wash your face and hands clean." Horrified, eho declared that she had washed them several times during the day, "What I urau le this—wash with soap thoroughly." All she had never used soap on her face. When noon returning home she need tha soap, theu rinsed in clear waier, she was quite mortified to find her face actually dirty. In obedience to the doctor's advice, this lady pursued the following course, which may prove beneficial to uthess: Every uight just be fore retiring she bathed face, neck and hands thoroughly in sospunds, using, of course, fine tuilet soap; then rinsed in clear water and dried the skin ou a soft Bande

course, sine tulict soap; then rinsed in clear water and dried the skin on a soft Turkish towel, rubbing until quite free from moisture. If any sign of roughness or sunburn appeared, a few drops of glycerin were rubbed in.

To do away with the oily appearance the doctor prescribed this diet: Lean ments, plenty of truit, vegetables in their season (not cooked in gresse), no pastry or cake, brown angar or molasses, but outment, cracked wheat, farina and the like, eprinkled eparingly with white granulated engar. Three times a day she stirred a spoonful each of cream of tartar and sugar into a tumbler of water and drank it, in order lo cool her hlood. This was an agreeable medicine, both in the taking and in the effect. All heat or fat producing viands were forbidden, as well as coffee with milk, chocolate and beer. Plenty of ontdoor asercise, with a vell to protect the face, this wise doctor recommended; also indoor games, each as shuttlecock and battledoor, to stir the singuish blood. In one year the lady had a fine complexion, a clear, soft skin and a thoroughly healthful constitution. She both looked and felt years younger.

Sonspiesces by Their Absence to City
Streets—Der Laberser Ia the Ceastry.

Au American visiting Greece to the first
time is atruck, sooner or later, by a certain
dullineas in the street life of its towas,
which it mey take him sone little time to
deduce and trace to its real cause. At
leagth and soddenly the fact comes home
to him that there are tew, it any, wamen
visible among the foot passengers. No
wouder, he reflects, that the streets abould
appear dull to him, shorn as they are of all
the variety that woman's presence and
dress ever lends to the thoreughfares of
countries farther west.

In Girecce it is only toward evening, and
then for but a brief pariod, that the fair
acx take an outing, unless the pressure of
some urgent business should compet them
to fit enjelly through the throug of men
who at other times monopolite the streets.
Now will a foreigner meet with them serving in the shops, the restaurants or the
sease; they will still be completious by
their absence. In fact, unless he visits
them to the privacy of their homes he will
scarcely do mose then catch an occasional
glimpse of them at the upper windows of
some private dwelling house or shop, where
when the weather is accomable they will
alt reading and sealing and craning their
necks out tu a atch the upper windows of
some private dwelling house or shop, where
when the weather is accomable they will
alt reading and sealing and craning their
necks out tu a atch the upper windows of
some private dwelling house or shop, where
when the weather is accomable they will
alt reading and sealing and craning their
necks out tu a atch the passersby below.

But to quit the towns, where it will be
seen that women play but a small part in
public life, and to turn to the rured districts of Greece. Here wamen takens more
active part in avariday life; the Is in who
deaves the water, brings in the wood that
the usen have felled in the brees, or who
pluckity carms her warre are ady laborate
in the masse or cornfield. In the bearing THE WOMEN OF GREECE.

May to Make Tea.

Housewives anxious to shine as good teamakers may like the flowery Chinese recipe engraved on many teapots used in the Celestial supire: "On a slow fire set a tripod, fill it with clear rainwater, boil it as long as would be needed to turn fish white and lobater red, throw this upon the delicate leaves of choice tea, let it remain as long as the vapor rises in a cloud. At your ease drink the purs liquor, which will chase away the fire way to the fire causes of trouble."

reminiscent statement in nonning requirement to it are trequent. Its whereabouts rece thought to be permanently naknown ill, as steted by a Councelleut correspondent of the New York Times, it was dug up

"Well, I'm not going to ruu any such risk, my dear,"
"That's just like yon, John! Ever since yon got your life insured you'va been awfully afraid you'd get killed."— Life.

What I suffered for years with those tacible racking headscless. Life was only a torment to use; If you are no troubled, I wall salvies you to use Sniphur littlers, for timy cured me.—Clara Balls.

Are You Troubled With Rheumatism?

DO YOU THINK RHEUMATISM IS INCURABLE? A great many will answer, Weil, I have had it a long time and I have tried every also that has come before my notice, and I satil have it, and as less I som personally necrosed its esems to mo that I siways will have it.

HAVE YOU EVER TRIED "RENOVIA?" Some will answer and any "No:" nover heard of it. Others will any "Yes, " but iddd" do me any good. Still others will say and have said Yes, I have not only tried i but am ready to testify that it has holped me. Others will any, If I shought it would bely me I would try tit. To those who have tried it and have not seemed to realize that it had helped them.

DID IT COST YOU ANYTHING TO TRY IT?

No, it did not; all must asy that. To those who have tried it and seem to think that it did not halp them: New Much and Haw Long Did You Try It? And How Long Marc You Had Rhenmaitsm?

Now these two last questions go well together. Consider them, for it takes longer to natic a string with two kents in it then it does one, and it requires more patience on the part of the sufferer who has had lithermatian a long time than on the part of the one who has just found out that he has Rheamatian.

We will let you try RENOVIA Iroo. If it helps you we will charge you seventy-five cents per week at long as you take our Specific, and ill it does not help you it will only cost you the trouble of coming after it. Call on or address, P. B. BOT 191. THE RENOVIA MEDICAL CO. INSULU WEINSULU, MAIS.

## The Boston Herald DAILY and SUNDAY,

How to Kill Cate Hamasely.

The quickest and easiest way is to chloroform them. Cut the foot of a sock off and draw it over the cat's head nutil the too is well over her nees. Pour about half a tesspoonful of chloroform on the too of the sock. This will Irighten the cat, hat soon lunders elsep, when more chloroform, enough to kill the animal, is added.

provided tha handkerchief is isid evenly, will meet, and it is these iapping bits that you are to catch together with beedle and thread. Sevenpoints from each corner will be enough. The will leave several scallepe ateach end free.

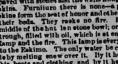

New take the quarter of a yand of china silk reserved for the pad, and having previously cut a cheesceloth cover, in which has been placed cotton batting and powder, drew the silken case over it. It is well to saw up tha piece of elik on the wrong side. Icaving one sud open, so that when tureed the pad may be easily inserted. This pad, having been previously measured to fit that bottom of the ready stitched kerebief, may be slipped within, thus providing a tinted fackground for the willte cover. When sonce the pad is laided, turn back and press down the four unconfined corners. Next perch between each turned down portion a harfy knot of feather edged Tom Thumb ribbon, matching in thus the silken pad. It takes one bolt of ribbon to successfully furtation that garnitures. All told, the sachet will coat 56 cents for the handkerchief, is cents for sell, 20 cents for and an or so conditions of the sachet powder.

To chonize wood, first stain with ecception of lowwood, purchased frem decection of lowwood, purchased frem

jet. The jet passementaries are accessingly handsoma, but they are prepared more to represent fanciful braids or rich guipures than the scroll ambroideries to which we are accustomed.

Fashion Notes. Table pellase is the nevelty of the season.

I he a dress in the left, and a very graceful und becoming one loo. It is closs fitting, lairly full at the lack, and reaches to the cet. The only sort of dress one could made it would be a silk skirt and blouse.

feet. The only sort of dress one could wear under it would be a silk skirt and blouss. Siecevee, they say, were nevor bigger in Paris than at present. They show no signs uf getting smaller here.

The winter wreps are immense—quite swerwhelming, in fact. One sees nothing of the woman when she puts on a fashionable close, only a lot of all k and verter and a lot of tur. The big fur edged shoulder capes cumpletely hide her figure and make her look pretty nearly as broad as long. The did style of habit bodice seems to be couling in again.

Small, bright colored resettes and wings—lace wings, jet wings, spangled wings, feathered wings—are the correct trimmings for bounder.

1 CRIOTIA HO

Baw to Cleanse Wall Poper.

First remove all the grease epots by placing folds of blotting paper over them and ironiog with a moderately warm Iron, after which brush all the dust from the paper and clean and brighten it with fuller's earth, mixed with water to form a hard pasts. It must be hard enough to handle like bread dough. To clean the paper take a small immp of the clay, and commencing at the top of the room wipe it lightly downward, about half a yard at each stroke, till the upper part ul the paper is clean, then around again with the same eweeping stroke, always commencing just above the end of the atroke above. This carefully done will shew an lines and renew the appearance of your walls.

—The Y. W. C. S. U., held a sociable atth Miss Annie G. Lond, on Wednesday wening, November IS. Quite a large num-ber were present and the avening was spent vory pleasantly.

Slaka stons lines in a large tith or barrel with boiling hot water, covering the tub or barrel in keep in all the steam. When thus alaked peas 6 quarts of it through a fins sleve. It will then be in a state of fins flour. Now, to 6 quarts of this line, add f quart of rock sait and I gallon of water. Then boil the mixture and skin it clean. To avery 5 gallons of this skinmed mixtures add I pound of alum, one-helf pound of copperas, by slow degrees, and three-quarters of a pound of potash and 4 quarts of fins asand or hickory saless sifted.

The National Builder, which gives this recipe, sopposes that any kind of hardwood ashes a "ill answer as well as hickory, and asys this mixture all i admit of any coloring matter you welp, and may be applied with a brosh. It looks better than paint and is as durable as ulste. It will stop small leake in a roof, pravent the moss from growing over and rotting the wood and render it incombustifie from sparks falling upon it. When laid upon brick work, it renders the brick impervious to rain or wat.

A NIGHT OF TERROR.

the closet door as each spoonful went to her mouth.

The weary hours wore on, hreken only by the whispered tales of awful we it whish hurgiars and deleuseless wo not were the only actors.

Finally i light dawned. The post changed sentirels. Mrs. Tunniciff took the duties of wotchman, while Caroline Katherine and Trut crept from the front door. They hastened down the street, looking back avery stap as they crossed the rustle hridge, reaching the Hilwartha just as their father was shaking off Morpheus' influence.

To their disappointment, he would take no other help than his revolver. Hut when one in the cottage he needed as quad of

no their disappointment, he would take no other help than his revolver. Hut when onre in the cottage he needed a squad of police to help thin to plow his way to the closet door.

First his wife in terror, with her arms areund his neck, implored him to get another man. "He will kill you he a minuta!"
Then his hands were grapped on citter side with "Oh, llarver, they may be armed!" and "There are nores than nue!" and "There are dosen!"
Fighting them off, he rushed, platel in hand, for the fatal door.

When, lol it opened at his touch without unlocking.

And when he got there
The capboard and here.

Cinclinati Post,

The Kteatograph.

Everybody may not yet understand the purpose of Mr. Edison's new hatroment, the kinetograph. The Industrial World explains that the apparatus consists of an optical tanture, a levice by which a moving image is projected on a screen simultaneously with the production by a phonograph of the a ords or song which accompany the movements pictured. Thus the photograph of a prima doona could be aboun on the screen, with the movements of the arm, the lead and the body, together a this the changes of facial capression, abits the phonograph would reproluce the song.

As the resistes Faci.

As taterecting Fact.

How to Lears Music.

Do not fall to take advantage of the library. Begio a course of good reading. Music is notorious for narrowing one mind, so resolva to counterbalance your practice with literary work as well. As to your practice, we woold give yon this maxim: "The rescotial thing in practice is to see exactly what is to be done in all its details and then do it again and again with the greatest clearness, precision and energy." When you take oups new piece, notice the key, the harmonies, chords, scales, fingering and general affects. One of the first necessaries is concentration. Develop self criticism. "The thing you cannot do is the very thing you should make yourself do." In practice begin where you left off the day before. Cannect your days work. Apply all your knowledge. Do not try tode more than one thing at a time. Spend a good deal of time cerry day thinking about what you are doing and what you will do.

Men to Keep tlands and Face From Chap

HOW TO WALK.

H HAMMANIA. training, Including boxing and fencing, inerctoforo relegated to the aterner sea, have found paironesses in plenty. From the earliest days since the walk and carriage have been a matter of study it has been decided by all authorities on the earliest days since the walk and carriage have been a matter of study it has been decided by all authorities on the effect was "heels fogether and toes out," which is the present military position.

The English rate is that the angle at which the toes should be turned ont on dress parsdo or in marching is 60 degrees. This throws the feet inis an extremely unnatural position, which it is practically impossible to mainlein in marching. This is about the degree which the dancing master prescribes to his pupils, and the average well trained was munt torms out her feet at a considerably iese analys, about 45 degrees. Sirrange as if may seem, vary little attention has been given to the position of the feet at the best physical fraining schools, though the importance of the manner of walking is taken as a part of the diagnosis.

There is but one opinion among physiologists as to the proper position of the feet, and that is thoroughly opposed in the opinions of the dancing master or the drill sergeant.

# PATENTS

FOR INVENTIONS

PRESS CLAIMS COMPANY.

Equal with the interest of those having claims against the Government is that of INVENTOHS, who often lose the benefit of valuable inventions because of the incompetency or instantian and the attorneys emphased to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventure from warthiess are careless attorneys, and of seeing that inventious are well protected by valid patents. THE PHESS CLAIMS COMPANY has retained counsel expert in patent practice, and is therefore prepared to

CLAIMS COMPANY has retained counsel expert in pietent practice, and is therefore prepared to

Chain Patents, Condoos Interferences. Make Special RanminaUnions. Proceedies Rejected Caners, Register Trade-Marks

THE LITTLE PEOPLE.

HOW TO CARE FOR THE HANDS.

les For Ecoping Thom White and At

lowing is the formula: Jordan almonds (blanched). I ounce; bitter almonds thianched), 6 to 5 drame; distilled water, one-half pint. Stir and add gradually to the strained emulsion bichleride of mergary, 85 gralas of the coarse powder, which has been already dissolved in one-half pint of distilled water. Dip s cloth in this and wet the hands with 15 night and merging.

half pint of distilled water. Dips cloth, in this and wet the hands with it higher and morning.

Always remove rings before using this, as there is mercury in it. Don't wash the hands in hot water or put thom in it if not compelled, but wash always is warm water if possible. Wips carefully, and wight the towal push way the fisch from the lower part of the nail, leaving the little half moon visible, Don't potat the nails or use colored salves for polishing. Ont nails with enred scissors.

Why Are "Crypta" to Caltest.

The word is derived from the Greek and means to hide, a crypt being an underground chamber, hidden as it warm under a church. In the sarliest time of Christianity worship was necessarily is the catacombt in Rome. It became ontomary afterward to use the tombe of the martyrs as churches, and thus erypts are supposed to originate. Churches were then built over the tombe and fitted as chapele.

then built over the temps and inted as chapels.

Why Are "Dogdays" he Celted?
Properly speaking, the "dogdays" last from the 84 of July to Aug. 11. Dogs are then popularly supposed to go mad, bull it is a mistaken notion, besides being untrus in fact. Dogs are, strange to asy, issellable to rables then than at other times. "Dogdays" is a translation of the Latin "dies casiquiares," the 20 days which precede and 80 which follow the rising of filtrin, the star, which the Bomann called "Canicula," or the "little dog." "The ancients considered this star to here an erril influence and sacrificed a brown dog to it in order to appears its rags. Of course it is known that in the course of time String will ries in midwinter instead of midsemmer.

M

Only the Scars Remain.

Haw to Maka Quaktag Custard.
One-half bor of gelatin, 5 eggs, a traspoonful of vanilla, 1; pints of milk, onehalf cup of sugar, one-quartee cup of
powdered angar. Covee the gelatin
with cold watse and soak half an hone.
Put the milk oo to boil. Beat the yelks
of the eggs and the half cup of angar together until lighs, then stir into the boiling milk, add the gelatin and stir over
the fire for a minute to thicken. Take
from the fire, add the vanilla, pour in a
mold and stand away to harden. When
it is ready to serve, best the whites to a
